3<sup>rd</sup> January 2017

Dear Parents

As part of our science topic work on Materials, Year 5 will be visiting Arreton Glass Museum and Craft Barns on Thursday 12th January. The trip will include a talk about the history of glass making and designing. The children will also have an opportunity to observe glass blowing and be able to ask questions about the process of glass designing.

We shall be leaving school at about 12.15pm and returning at approximately 3.00 pm. The cost of the trip will be £6.00. Please give consent a payment through [www.schoolmoney.co.uk](http://www.schoolmoney.co.uk). The children can also, if they wish, bring £2 to purchase a small glass memento in the shop.

Children will need to wear school uniform, including sensible shoes. In addition they should take a waterproof jacket.

We will be leaving after an early lunch at school so your child's lunch arrangements should remain as normal.

Yours sincerely

Mrs J Hay  
Year 5 Teacher
