Access statement

This Access statement is based on a belief in equality and inclusiveness for all and endorses that everyone should have equal access to facilities and services regardless of a persons protected characteristic as defined by the Equality Act 2010 (age, disability, gender reassignment, pregnancy/maternity, marriage/civil partnership, race, religion/belief, sex or sexual orientation).

With this in mind Bembridge Primary School puts accessibility for all at the heart of the planning and design process. The school is committed to providing a fully accessible environment which values and includes all pupils, staff, parents and visitors regardless of their educational, physical, sensory, social, spiritual, emotional and cultural needs. We have accessible toilets in the school and accessible parking on site.

We are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.

Introduction:

Schools generally want to be fully inclusive, but sometimes are not sure what things need to be considered and may not have much guidance or information. As a local provider of education we want to ensure that we are providing the best possible access to learning at Bembridge CE (Controlled) Primary School. To ensure that we achieve this we undertake a self-assessment on an annual basis.

How the self-assessment works:

We look at how inclusive we are by identifying how we are performing against each of the twelve areas below and rank them according to achievement and progress. We then discuss our initial findings with staff, governors and the school council. Areas that are identified as red or amber are priority areas for action and are progressed by using an action plan which is monitored by governors and the senior leadership team and can be found as an appendices to the policy.

We have met some areas of “Super Green” but this may fluctuate depending on the access needs of pupils in the school.

However, we are not complacent, areas that are identified as either green or super green are also monitored to ensure that we maintain or improve those levels.

Achievements are highlighted as follows:
