20 January 2020

Dear Parents/Carers

As part of our Science topic on the Solar System, Year 5 will be visiting the Science Centre and Planetarium in Winchester, on Monday, 2<sup>nd</sup> March.

Children need to be dropped at Ryde Hovercraft Terminal at 0830 for the 0845 Hover, and be picked up from the Ryde Hovercraft Terminal at 1540pm. School uniform and a packed lunch will be required.

The cost for this trip will be £31.75. This covers the admission (including access to a wide range of hands-on science experiments, an expert-led planetarium session and a private space workshop specifically tailored to year 5 children) as well as coach and Hovercraft costs.

If children wish to buy anything from the gift shop as a souvenir they may bring with them a maximum of £5 which will be their own responsibility for the day.

If contact and medical details have changed since completing the EV3 form from the previous trip, please inform the office. Payment and consent can be done through [www.schoolmoney.co.uk](http://www.schoolmoney.co.uk), This can be paid off in instalments should you wish to.

Yours sincerely

Mr R Silk
